

Remarks

Claims 1-34 are pending. Claims 1 and 16 have been amended. Entry of the amendment after allowance ("current amendment") is respectfully requested. No new matter has been added.

Claims 1 and 16 have been amended to correspond to the "Proposed Amendment For Purposes Of An Interview", which was sent to the Examiner on December 21, 2006. The Examiner's amendment set forth in the Notice of Allowability dated January 16, 2007 substantially corresponds to Applicants' proposal. However, the Examiner's amendment includes typographical errors that this current amendment seeks to correct.

The Examiner's Amendment to claim 1 does not correspond exactly to Applicants' proposed amendment to claim 1. The proposed claim 1 amendment included the insertion of the language "wherein the at least one radiation *emitting* device is operative to emit radiation". The Examiner's Amendment inadvertently left out the term "emitting" from said language. The current amendment properly inserts said "emitting" into claim 1.

The Examiner's Amendment also did not include Applicants' proposed amendment to claim 16. The proposed claim 16 amendment included the insertion of a comma after the language "wherein the operation is dependent on the prompting". The current amendment properly inserts said comma into claim 16.

Applicants respectfully submit that the current amendment merely embodies the correction of formal matters without changing the scope of the claims. The current amendment corrects typographical errors. The current amendment improves the readability of the claims. The current amendment requires no substantial amount of additional work on the part of the Office. Thus, entry thereof is respectfully requested.

Respectfully submitted,

Ralph E. Jocke
